Important Information:

At CosMc's, we take great care to serve quality, great-tasting menu items to our customers each and every time they visit our restaurants. We understand that each of our customers has individual needs and considerations when choosing a place to eat or drink outside their home, especially those customers with food allergies. As part of our commitment to you, we provide the most current ingredient information available from our food suppliers for the nine most common allergens as identified by the U.S. Food and Drug Administration (eggs, dairy, wheat, soy, peanuts, tree nuts, fish, shellfish and sesame), so that our guests with food allergies can make informed food selections. However, we also want you to know that despite taking precautions, normal kitchen operations may involve some shared cooking and preparation areas, equipment and utensils, and the possibility exists for your food items to come in contact with other food products, including allergens. We encourage our customers with food allergies or special dietary needs to visit www.CosMcs.com for ingredient information, and to consult their doctor for questions regarding their diet. Product availability may differ depending on location. All trademarks used herein are the property of their respective owners, used with permission.
